Today, many educators are looking for better ways to assess their students development, knowledge and progress throughout the school year and integrate those results into planning and development opportunities for learning.

Outcomes Express provides teachers and administrators of Pre-K, Kindergarten, Head Start Programs and state funded preschool as well as some Special Needs and English as a Second Language students with a fast and simple way to implement and manage the assessment process. Through the combined use of teacher rating checklists and direct assessment via a computer-based assessment tool, teachers can evaluate skills across the domains and elements that are traditionally incorporated in early learning programs. These include:

- **Language development**-- listening/understanding; speaking/communicating
- **Literacy**-- phonological awareness, book knowledge and appreciation of print, print awareness and concepts, early writing and alphabet knowledge
- **Mathematics**--number and operations; geometry, patterns and spatial relations; data collection and measurement
- **Science**--application of skills and methods of inquiry in developing knowledge and understanding natural process
- **Creative arts**--music, art, movement and dramatic play
- **Social and emotional development**--self concept, self control, cooperation, social relationships, knowledge of families and communities
- **Approaches to learning**--initiative and curiosity; persistence, reasoning and problem-solving
- **Physical health and development**--fine and gross motor skills, health status and practices

Once the assessment is complete, **Outcomes Express** generates a *Classroom Summary Report* that aggregates student data across domains. Results generate lists of small groups of students that can benefit from similar activities, providing *Recommended Learning Activities* to assist the teacher in offering specific learning activities, including computer based activities with **KidWare**, that enrich each child's' classroom learning experience.

Benefits:

- Gives teachers assessment results immediately to guide changes in instruction and curriculum
- Evaluate progress in non-threatening environment
- Utilize information for parent conferences without needing additional interpretation, lowering cost of assessment
- Automatically generates individual progress reports with easy to understand graphics and minimal text
- Monitor child outcomes throughout the year
- Aggregate summary scores across classrooms, centers, schools and the program office
- Supports Spanish speaking children

Skills Addressed:

Alphabet Letters
Patterns
Language and Literacy
Letter Sounds
Rhyming Words
Shapes and Colors
Environmental Sounds
Number Concepts
Spatial Relations
Numeral Recognition
Problem Solving
Number Recognition

Outcomes Express uses computer-based activities and teacher rating checklists to evaluate primary grade students' development, knowledge and progress.
